Product benefits

- **Shop, bank, and make travel arrangements online**
Norman Ad-Aware actively shields you from the latest cyber threats, including, spyware, password stealers, keyloggers, trojans, dialers, and other potential identity thieves.
- **Stay safe on social networking sites**
Ad-Aware keeps your passwords and personal information safe to make sure you can socialize freely, without having to worry about dangerous intrusions and prying eyes.
- **Download photos, music, and other files with confidence**
Download Guard and Ad-Aware's behavior-based detection finds suspicious files and threats before they integrate into your PC and attack your personal information.
- **Control your privacy**
Erase tracks left behind while surfing the Web, on browsers such as Internet Explorer, Opera, and Firefox, in one easy click.
- **Safeguard your secure documents**
Ad-Aware actively shields you and your business from deceptive applications and cyber attacks.
- **Enhance computer performance**
Conserve resources and reduce downtime by using automated scans to identify and remove malicious applications that eat up memory.
- **Get Peace of Mind**
Ad-Aware cleans and restores your system after an attack to keep your PC running as new.

Product Details

CUSTOMIZABLE PROFILE SCANS

Easily create personalized scan profiles so that Ad-Aware only scans areas that you select. Save time by scanning areas where known malicious programs are located, or choose from 13 different sections to scan, including critical sections, only executables, ZIP files, and the Windows registry.

THE SCHEDULER

Automatic Scans set to your personalized schedule to optimize time and resources.

NETWORK DRIVE SCANNING

Scan network drives so you can detect malware on any shared disks on your network, not just on your hard disk.

EXTERNAL DRIVE SCANNING

Scan your external storage device, iPod, USB's, or any other drives that you connect to your PC for an additional layer of security.

SYSTEM REQUIREMENTS

Processor: P600 MHz or better
RAM: Operating system + 100 MB
Hard Disk: 100 MB free space recommended

Spanish, Portuguese.

New! Genotype Detection Technology

Based on heuristics, genotype allows Ad-Aware to stay one step ahead of today's ever-evolving threats, as well as threats that have not yet been created. For in-depth information on this technology, please click here.

New! Behavior-Based Heuristics Detection

Extra Sensory Protection allows you to go a step beyond detecting known threats – the heuristics detection finds and blocks unknown and emerging threats and stops deceptive malware and cyber thieves before they attack your personal information.

New! Rootkit Removal System – Level 3 Expert

Expert level rootkit technology to uncover and remove even the most complex monitoring tools, stealth mechanisms and hidden code – preventing the most furtive tactics used to gain unauthorized access to your system.

New! The Neutralizer

Advanced removal tool combats malware that attempts to restore itself even after rebooting your system.

New! Download Guard for Internet Explorer

Most people are aware of the dangers and the risk when downloading files from the web. Download Guard provides an additional layer of protection that lets you download files on Internet Explorer confidently. If the file is malicious, you will simply be notified during the download process so that you can take action before any malware can infiltrate your system.

New! Do Not Disturb Mode

Stay protected while watching videos, playing games, or making presentations in full screen mode - without annoying interruptions or strain on system resources that other security software programs cause.

Easy to Install and Use

We know not all users have the same needs, so we give you the power to decide how you want to interact with Ad-Aware.

- **New!** Simple Mode allows you to set and forget - by using our expert recommended settings, no interaction is needed from your part, making using the program as easy as possible.
- **New!** Advanced Mode lets you customize all the settings as you choose, to tailor everything to your specific needs.

New! ThreatWork Alliance

Improvements to ThreatWork Alliance allow us to provide the best protection possible against the newest and most relevant threats, through the help of our community of security volunteers.

Norman ASA is a world leading company within the field of data security, internet protection and analysis tools. Through its SandBox technology Norman offers a unique and proactive protection unlike any other competitor. While focusing on its proactive antivirus technology, the company has formed alliances which enable Norman to offer a complete range of data security services. Norman was established in 1984 and is headquartered in Norway with continental Europe, UK and US as its main markets.
